EDUCATION

University of Maryland, College Park

Class of May 2025

Bachelor of Science in Information Science, Minor in Real Estate Development

College Park, MD

Relevant Coursework: Statistics for Information Science, Object-Oriented Programming for Information Science, Database Design and Modeling, Privacy and Security for Big Data, Technologies and Architecture

EXPERIENCE

The Wall Street Quants

November 2024-Present

Account Executive

Remote

-Generated over \$145K in new business revenue by enrolling students into a high-value bootcamp program through outbound efforts

- Consistently exceed monthly sales targets by leveraging a consultative sales approach and strong objection handling.

ThermoFisher Scientific

June 2024-March 2025

Security Engineer Intern

Frederick, MD

- Designed and implemented a Product Risk Calculator to assess potential security vulnerabilities and flaws on company products, considering the product's configurations.

- Reorganized the vulnerabilities database to optimize space, which made queries run quicker while ensuring important historical information was maintained and more easily accessible.

- Participated with several security-focused teams to track, progress, and implement ongoing security projects.

MaxWarehouse (Ace Hardware e-commerce partner)

May 2023-August 2023

Junior Database Administrator Intern

Miami, FL

- Optimized advertising strategies by creating SQL queries that revealed trends in certain products.

- Developed a sales projection algorithm in Python to understand the impact of advertisement spending.

- Collaborated closely with the Database Administrator on query development.

- Researched and presented the latest tools in artificial intelligence relevant to the company's operations.

PROJECTS

ThermoFisher Scientific Product Risk Calculator | Python

June 2024-March 2025

-Constructed both frontend (GUI) and backend (algorithm) to make a calculator that would score products riskiness out of 10 (10 being the highest risk).

New York Jets Fanpage | HTML, JavaScript, CSS

May 2021-August 2022

-Engineered a multifaceted web interface consisting of various interactive sections, including a gallery, news section, video library, and a contact me page.
